I am a passionate technology enthusiast with a strong background in computing which enables me to seek solutions to daily human-centered problems using design analytical thinking. I've participated in various tech community building activities and held high leadership positions as a result of my passion for technology and development.

EXPERIENCE

03/2023 – Current

Digital Marketer, Wincer Cake House

I currently work for Wincer Cake House as a digital marketer, where I take on the following responsibilities:
- Use software, including Adobe InDesign and Canva, to develop graphics for marketing content.
- Assist with social media activities, including developing post graphics and captions, uploading content, and monitoring results.
- Assist in developing successful marketing campaigns, managing tasks including collecting data and designing marketing material.

08/2024 - present

GDG IoT Track Lead, JKUAT

I served in the Google developer Group as the Internet of things (IoT) track lead for JKUAT where I:
- Inspired, mentored and educated community members about the possibilities and impact of IoT.
- Fostered collaboration amongst community members.
- Strategically planned the track sessions and activities.
- Organized for a one-week training by an external organization.

02/2025 – 04/2025

Google POS (BA), YDX Agency LTD

I worked as a Google POS Brand Ambassador at YDX Agency LTD, where I take on the following responsibilities:
- Engage consumers in the product and meet sales targets from time to time.
- Communicate any incident captured during the activation.

02/2024 – 04/2024

Computer Studies Teacher, Fekija Vision Centre

I worked as a computer studies teacher at Fekija Vision Centre, where I:
- Assessed student progress through regular assignments, tests, and feedback sessions, guiding improvement.
- Integrated problem-solving and critical thinking exercises into lessons enhancing students' analytical skills.
- Communicated positively and professionally with staff and pupils, leading by example in delivering school values.

- Illustrated practical uses of Computer Science curriculum to enhance student passion and understanding.
